

Article I - Purpose

The Pueblo Municipal Shooters Pistol League was established to provide a competitive shooting event for the enjoyment of PMS members as well as guest shooters from the community. Pueblo Municipal Shooters pistol league rules and regulations are based on the NRA Precision Pistol Rule Book. All NRA rules apply with the exceptions related to the distance from bench to target and using two hands instead of the traditional one hand bullseye shooting stance. Download the NRA Precision Rule Book at:

<http://competitions.nra.org/documents/pdf/compete/RuleBooks/Pistol/pistol-book.pdf>

Article II - General

- A. No leaning or supporting yourself on the bench or wall.
- B. Targets must be set in place with the white line on the overhead track clearly visible.
- C. No shots prior to the “Commence Firing” command. No shots after the “Cease Fire” command.
- D. Shooters must always comply with and follow the range officers directions at all times.
- E. Shooters are NOT permitted to shoot semi-auto or revolvers twice in the same category.
- F. The league’s Procedural Committee will oversee all rules, regulations, safety, and scoring procedures. The league’s Procedural Committee members include; the director of the pistol league, the assistant pistol league director and one PMS member who is an active pistol league shooter.

Article III – NRA Rule 10.10 – Procedure in Case of Malfunction

- A. **Should you have a defective cartridge (misfire), firearm malfunction, or stoppage, keep the gun** in the ready position pointed down range. **Do not clear the gun** or attempt to resolve the malfunction. Raise your non-shooting hand to call for an alibi. A Range Safety Officer will then inspect the reason for an alibi request and determine if you are granted the alibi.
- B. If the alibi request was granted during Slow Fire, you will be allowed to shoot the number of rounds necessary to complete the 10-round string on the same target.
- C. If the alibi request was granted during timed or rapid fire, you will be required to load an additional five rounds and (in a timed or rapid fire string) fire into the same target. In scoring, the lowest ten rounds in your target will determine your score.
- D. Should the shooter fail to follow the required alibi procedures, the alibi request will be denied.

Article IV - Scoring Procedures

- A. With the new league format adopted in 2015, the scoring for Top Gun, Pro, and Match level **competitions will be based solely on the total number of points earned by each competitor.** All shooters will be competing to earn the highest number of points possible. The total number of points will determine the first, second and third place winners in each level of competition.

- B. To determine the three different levels of competition, the total number of shooters will be divided by three. For example, with 15 shooters there would be 5 shooters in each of the three levels of competition (Top Gun, Pro & Match). Should the total of shooters be an odd number, there would be an additional shooter assigned to the match level. For example, with 16 shooters there would be 5 in Top Gun, 5 in Pro and 6 in Match. In the event there are 17 shooters, there would be 5 in Top Gun and 6 in Pro and 6 in Match. With less than nine, the total number of shooters would be divided by two rather than three. With three or less shooters there would be only one level of competition.
- C. First, second, and third place awards will be given out only if there are a total of five shooters in any of the three levels of competition (Top Guns, Pro-Shooters, Match Shooters).
 - 1. With four shooters only the first and second place shooters will receive awards.
 - 2. With three shooters or less only the first place shooter will receive an award.
 - 3. Exceptions can only be made and approved by the league Procedural Committee.
- D. If you miss a shoot and it is not made up either the week prior to or the week after, no points will be awarded. No averages will be considered. If you miss the last shoot of the league you must make it up prior to the last night of the league.
 - 1. No points will be awarded once the league has ended.
- E. Targets are brought in from the range by an RSO to the scoring table. The targets are scored and double checked, and when necessary triple checked. Targets are then entered into the computer under the shooters name in the appropriate category, i.e., Rimfire, Centerfire, CF-Revolver, etc.

Targets are not permitted to leave the range until the scoring of all targets are complete. Once the scoring is done, under no circumstances are targets to be re-scored, altered or changed by anyone other than the league Procedural Committee. Any targets in question must be submitted to the league Procedural Committee for their review and consideration. If the number of targets cannot be entered into the computer in a timely manner, they may be removed from the range in order to complete this process only with the approval of the league Procedural Committee. Scores will be posted at the range as soon as possible prior to the next league shoot.

- F. After the last league shoot, the league Procedural Committee will review and determine the winners of the different levels of competition (Top Gun, Pro, and Match). There will be an awards and recognition ceremony one week from the last league shoot.

Team Challenge

While there will be no change in the Pistol League format (individuals competing at three levels of competition) there will be an option of a Team Challenge. The Team Challenge will be thoroughly explained at the first night of league shoot. The procedure is as follows:

1. Individual shooters may choose another shooter to form a two-person team.
2. All teams must be established on or before the second week of shooting. You will receive a Team Option form on the first night of the league. It must be filled out and turned in with fees paid by the second night of league shoot. Cost in addition to the regular league fees will be \$2.00 per team member.
3. Teams will compete against other teams at the same level of competition (Top Gun, Pro, Match) shooting center fire semi-auto or revolvers at 25 feet.
4. There will be no additional or extra shooting required. The scores you shoot in the regular pistol league will be combined to determine your team scores.
5. The team who accumulates the most points after five weeks of shooting will be declared the winners. Only first place teams will receive awards.

Off the Chart Shooters

This is an opportunity for those shooters who do not want the pressures of competition and would prefer to shoot their self-defense/conceal carry weapons rather than bullseye target guns.

1. Shooters will not be competing against regular pistol league participants, but will be shooting in the same time sequence (slow fire, timed fire & rapid fire).
2. All Off the Chart shooters will be shooting at 17 feet at NRA B-29 silhouette targets.
3. Shooters can shoot rim fire or center fire, semi autos or revolvers (not to exceed .44 caliber magnum). All weapons must have open/iron sights, NO lasers, No scopes permitted.
4. Off The Chart Shooters will only be competing against themselves with the emphasis on improvement over the course of five weeks.
5. Fees are the same as the league. \$12.00 entry fee and \$5.00 target fee.
6. All range rules pertaining to safety and league procedures apply
